

**Pre-tasting tutorials for new members or potential new members.**

Are you interested in wine but consider yourself a novice when it comes to wine tasting? Don't let that stop you from participating in our fun and informative wine tasting events. We can provide a short tutorial for any member who is interested in getting some basic tasting information before their first tasting event.

We can let you know more about the key steps in assessing wines, wine tasting etiquette, basic terms, and much more. Experienced wine tasters in our group will be glad to meet you informally before an event starts. You can spend a short time getting up to speed so you will feel comfortable and get much more from the tastings that you attend.

Let us know when you register for an event that you would like to take part in this type of tutorial and we'll be happy to arrange it.
